

I am writing to comment on the radion station known as K-LOVE. I have read that, due to changes in regulations, they could be in danger in some cities and I feel that would be a terrible loss. K-LOVE offers a strong moral influence on people who have an opportunity to listen to it. They are positive abd uplifting and it is one of the few radion stations that can be left on while children (and especially teen agers) are in the room with no concerns over content. I feel that the loss of K-LOVE would be a significant loss to the community, as it assists Churches in their ministry, provides Christian music to those with limited access, and provides support for parents trying to teach their kids proper values. THank You for listening.
